Project:

Energy Community
Avedøre (DK)

Supported by:

EGC

Support measure:

Technical Support

DESCRIPTION OF PROJECT

Energy Community Avedøre is Denmark's first energy community, producing, storing, and selling energy in the city of Avedøre.

DESCRIPTION OF SERVICE

Through W4RES, European Green Cities has worked with Energy Community Avedøre to develop and find funding for a solar-powered electric bike sharing system in Avedøre.

Project:

Energy Community
Høje-Taastrup (DK)

Supported by:

EGC

Support measure:

Technical Support

DESCRIPTION OF PROJECT

Energy Community Høje-Taastrup is the aspiration of a group of stakeholders in Høje-Taastrup. Together, they hope to establish a new energy community.

DESCRIPTION OF SERVICE

Through W4RES, Energy Community Høje-Taastrup receives support from European Green Cities in identifying necessary and desired stakeholders and next steps necessary to inaugurate a new Danish energy community.

Project:

UIA2023CPH (DK)

Supported by:

EGC

Support measure:

Business Support

DESCRIPTION OF PROJECT

UIA2023CPH is the organization behind the World Congress of Architects, which will take place in 2023 in Copenhagen.

DESCRIPTION OF SERVICE

European Green Cities is supporting UIA2023CPH in international outreach and in matchmaking women-led renewable energy organizations at the conference. This support will better equip UIA2023CPH both to reach and impact a broader audience and to showcase more women in the renewable energy ecosystem.
