Project:

Attica Energy
Community (GR)

Supported by:

Q-PLAN

Support measure:

Business Support

DESCRIPTION OF PROJECT

Attica Energy Community is an Energy Community based in the area of Athens and they aim to take advantage of unexploited lands for the construction of solar panels in private properties. The produced energy will be distributed among the members of the Energy Community within Feed in Tariffs and will contribute for the provision of RHC.

DESCRIPTION OF SERVICE

Through W4RES they are receiving Business Planning support to enhance their overall entrepreneurship and sustainability for such projects.
